

Open Source Monitoring with Loki, Grafana, Tempo, and Mimir

Fabian Stäber
JBCNConf 2022

Fabian Stäber

Sr. Engineering Manager
at Grafana Labs

Prometheus team member
Maintainer of the Prometheus
Java client library

@fstabr

Demo & Code

github.com/fstab/jbcn.conf-2022

Script running
curl in a loop

Hello World
Application

Greeting
Service

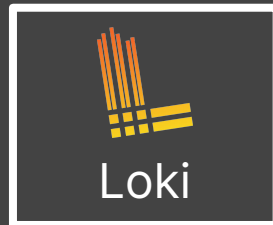

GET http://localhost:8080/

GET http://localhost:8081/

"Hello, World!"

"Hello, World!"

Left out in this talk: Alerting, on-call, infra monitoring, ...

Instrumentation

Metrics

Micrometer

OpenTelemetry

Prometheus

Traces

OpenTelemetry

Zipkin's Brave

Jaeger

Logs

Any of the
Java logging
frameworks.

This demo: OpenTelemetry's Java instrumentation agent.
`java -javaagent:./opentelemetry-javaagent.jar -jar myapp.jar`

Tracing

hello-world-app

span.kind = "server"

span.kind = "internal"

span.kind = "client"

greeting-service

span.kind = "server"

span.kind = "internal"

Thank you!
